## AI Automation Architect | Marketing Automation Architect | AI Integration Strategist | HubSpot Certified | Remote

AI systems architect and marketing-automation leader — 25 years in marketing, the last 15+ building AI and automation systems. I design and deploy production AI — voice agents, multi-agent workflows, and CRM / lifecycle automation — that connect data, automation, and human teams to measurable business outcomes. Framework-agnostic by design: the system and the result come first, the tooling follows.
